March Data Science Projects

Welcome to the **March Projects** repository! This space is dedicated to exploring diverse data science projects using **Python** and **R**. The projects will cover various domains, including Data pre-processing, Exploratory Data Analysis, machine learning, statistical modeling, and data visualization.

🔨 Project List

Python Projects

R Projects

🚀 How to Contribute

1. Clone the repository:

```
git clone https://github.com/Cemputus/March-Projects.git
```

2. Explore the project folders and notebooks.
3. Feel free to fork, modify, and contribute!
